#### User Manual Change History

Update Date	Updated By	Version	Change Description
01/02/2006	EPSOFT	1.0.0	Initial version
05/05/2006	Andy	1.0.1	2 <sup>nd</sup> revision of EasyDS Uninstallation manual
10/05/2006	Andy	1.0.2	Update info on Firmware Datecode (p.7)

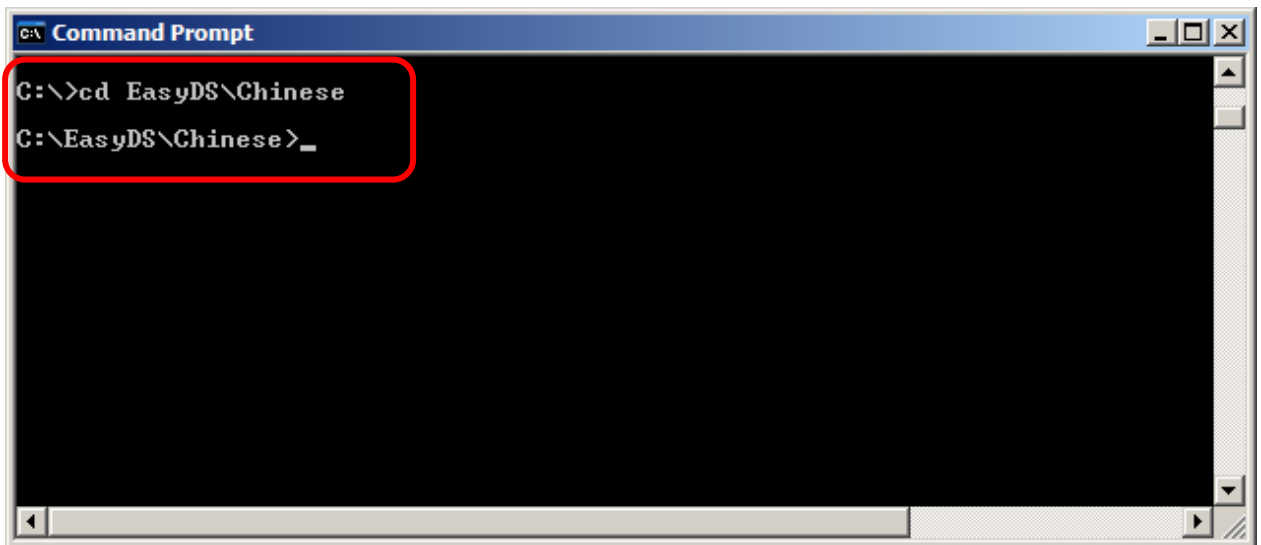

## 2. Uninstall the EasyDS Module

Steps taken to uninstall the EasyDS from the MFP:

- For the example shown below, the IP Address of the MFP is 192.168.0.102
- *Assume* that the required files to uninstall the EasyDS from the MFP are located in C:\EasyDS\Chinese folder. E.g. Uninstalling the Chinese version in this case

### Step 1:

Start -> Run-> cmd and Go to C:\EasyDS\Chinese folder (Figure 1)

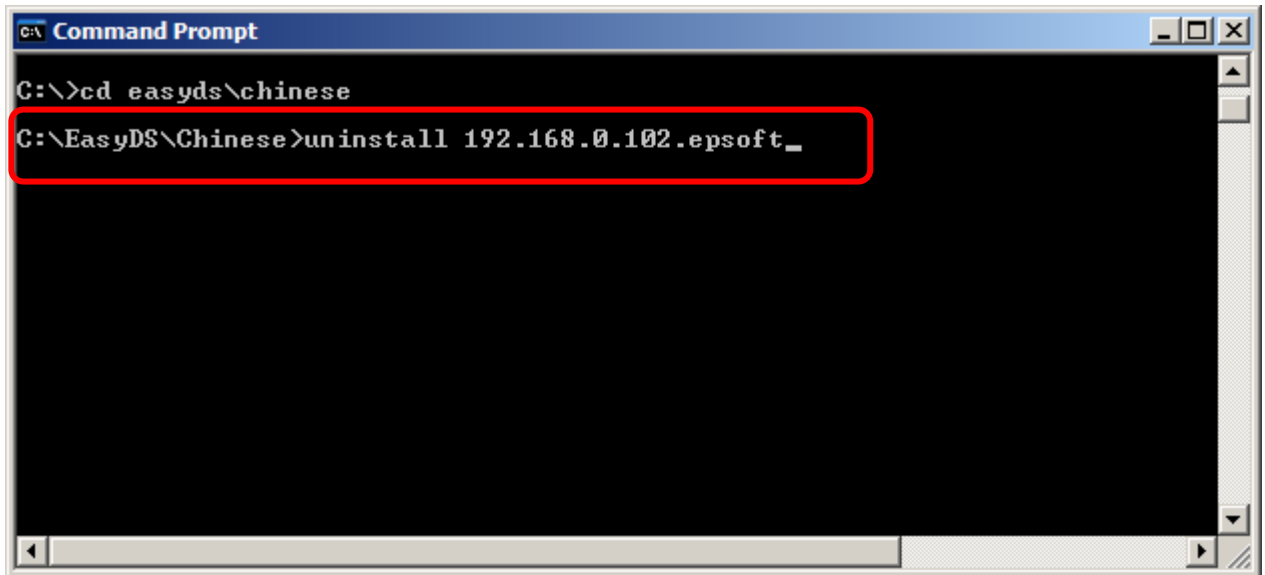

```
C:\>cd EasyDS\Chinese
C:\EasyDS\Chinese>_
```

Figure 1

**Step 2:**

Type: `uninstall<space><IP Address><space><password><Enter>` (as shown in Figure 2)

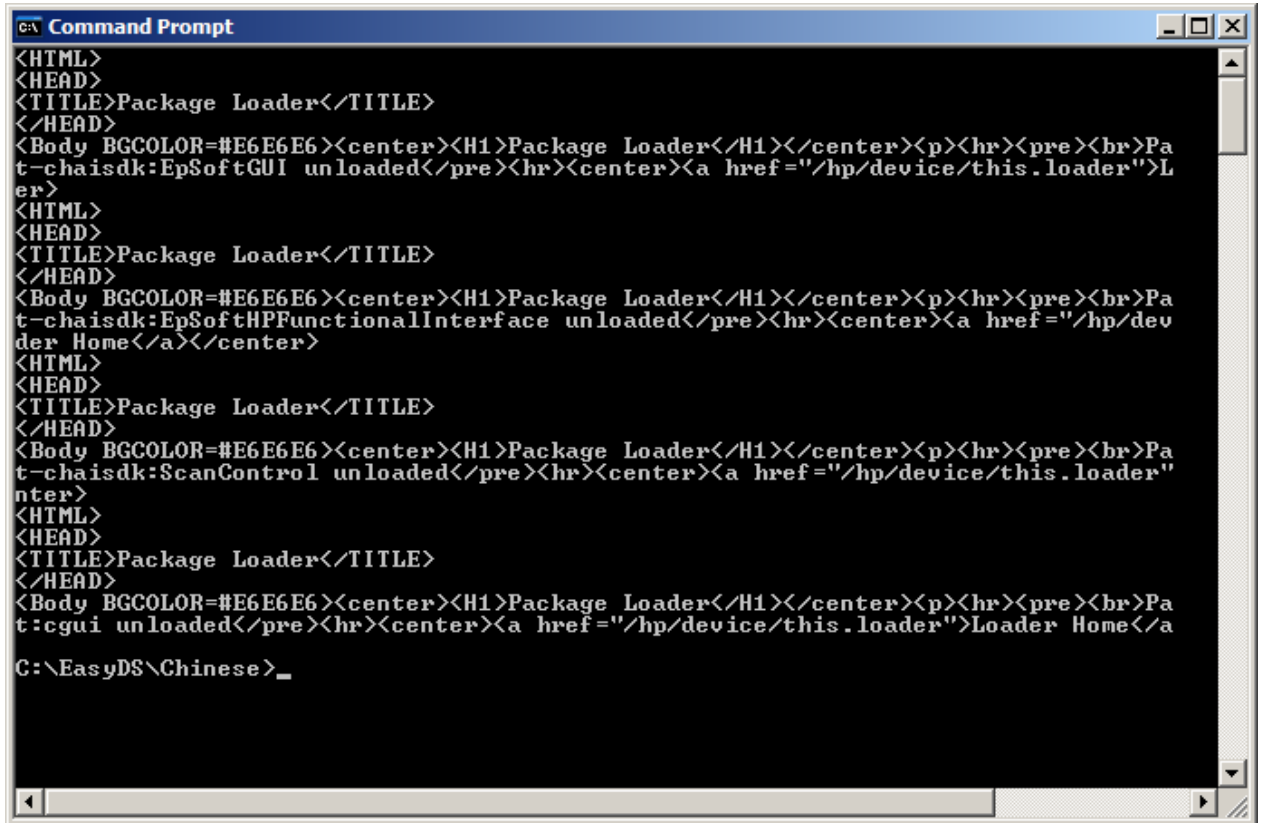

```
C:\>cd easyds\chinese
C:\EasyDS\Chinese>uninstall 192.168.0.102.epsoft_
```

The image shows a Windows Command Prompt window with a black background and white text. The title bar reads 'C:\ Command Prompt'. The first line of text is 'C:\>cd easyds\chinese'. The second line is 'C:\EasyDS\Chinese>uninstall 192.168.0.102.epsoft\_'. A red rectangular box highlights the second line of text.

Figure 2

**Step 3:**

Please wait for 4~6 minutes, until the firmware and the setup program are uninstalled from the MFP (as shown Figure 3)

```

Figure 3

**Note:** Once the files are uninstalled, you MUST reboot the printer to complete the uninstallation.

### 3. Printer Support lists

Below is the list of the supported Printer model with the Firmware Datecode.

**Note:** Please make sure that your printer is having at least the same Firmware Datecode (or higher firmware) shown in below.

MFP model	Firmware Datecode
LJ4345MFP	<b>20060411 09.051.6</b>
CLJ4730MFP	<b>20060214 46.121.2</b>
LJ9040MFP	<b>20060411 08.051.7</b>
LJ9050MFP	<b>20060411 08.051.7</b>
CLJ9500MFP	<b>20060411 08.051.7</b>

### 4. Limitations

- i. By using the function of localization version, the response time of the printer might takes 1~2 seconds slower than the original function of English version.

### 5. Tips

- A. If you encountered errors during installation process, turn off the printer for one minute and try rebooting the printer. Start the installation process all over again from the initial step. However, if the problem persists, feel free to contact us at [support@mypsoft.com](mailto:support@mypsoft.com) and please provide us with detailed information of the memory of printer, Hard Disk size, and Firmware version. We will try to respond to you as soon as possible.
